Other: Typewriting (English), Data Entry, Documentation & Reporting

PROJECT EXPERIENCE

Medicine Data Vault — MIS Dashboard Project

- Built an Excel-based MIS dashboard using Power Query, Power Pivot, and DAX to track pharmaceutical Sales, Purchase, GST, and Profit Margin data across multiple product categories.
- Designed interactive charts and slicers enabling fiscal-year-wise and staff-wise MIS reporting for management review.
- Key Achievement:** Consolidated multi-sheet pharmaceutical data into a single automated, drill-down dashboard, cutting manual report preparation effort.

Fiscal Matrix — Financial MIS Dashboard

- Developed an Excel dashboard using Power Query, Power Pivot, and DAX to monitor Revenue, Expense, and Profit & Loss data across departments.
- Enabled department-wise and category-wise MIS analysis through dynamic slicers and pivot-based reporting.
- Key Achievement:** Delivered a single interactive view of departmental P&L performance, replacing scattered spreadsheet-based tracking.

Fraud Pulse Analytics — Risk & Data Analysis Dashboard

- Created a fraud detection MIS dashboard using Power Query, Power Pivot, and DAX to analyze customer risk profiles, credit scores, and debt-to-income ratios.
- Applied filters and slicers for occupation, payment behavior, and fraud-flag tracking to support data-driven decision-making.
- Key Achievement:** Enabled faster identification of high-risk accounts through automated fraud-flag filtering, supporting quicker review decisions.
